## Prototype, Storyboards, Mindmeister

INF1802 Profa. Melissa Lemos

## Outline

- Storyboarding
- Creating Paper Prototypes
- Mind maps
- Digital Mock-ups

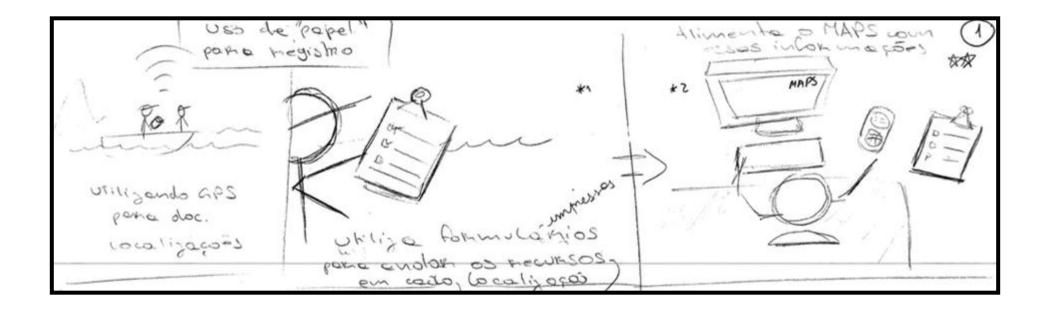

# Storyboarding isn't about "pretty pictures" it's about communicating ideas

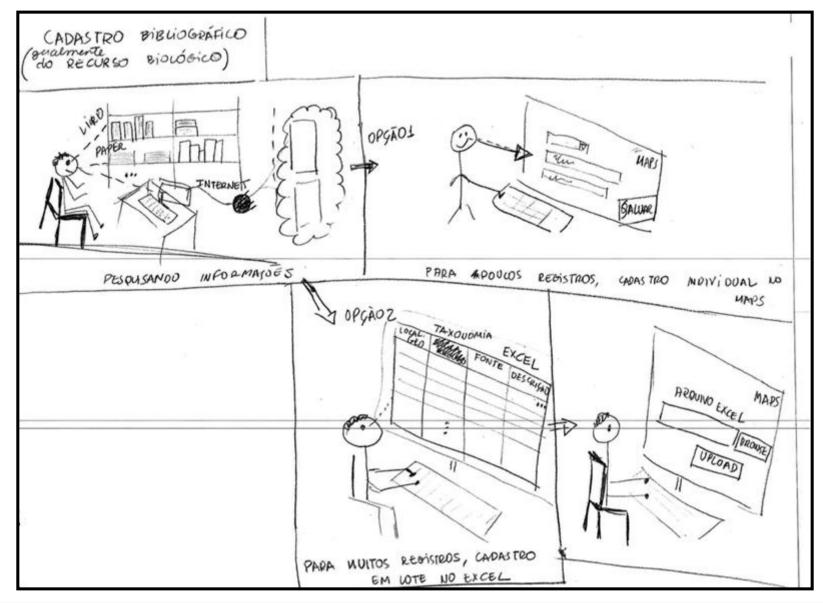

From Scott Klemmer: www.hci-class.org

## **Storyboards**

### Setting

- People involved
- Environment
- Task being accomplished
- Sequence
  - What steps are involved?
  - What leads someone to use the app?
  - What task is being illustrated?
- Satisfaction

PUC

- What's motivates people to use this system?
- What does it enable people to accomplish?
- What need does the system fill?

## **Benefits of Storyboarding**

- Helps emphasize how an interface accomplishes a task
- Avoids commitment to a particular user interface (no buttons yet)
- Helps get all the stakeholders on the same page in terms of the goal

## **Paper Prototyping**

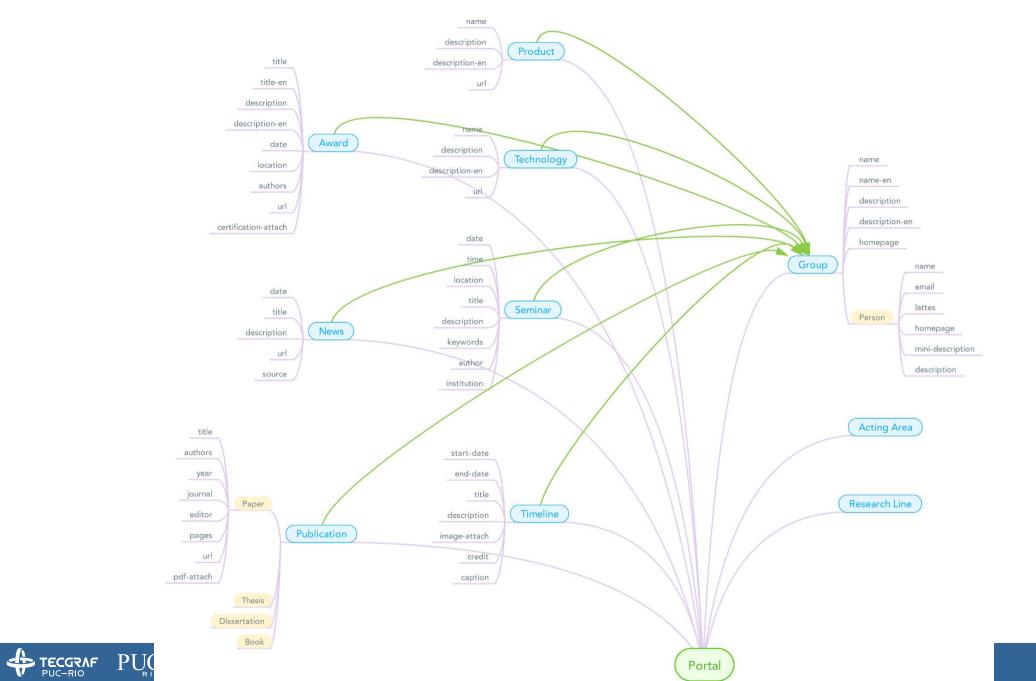

- Lifalyze Video
  - https://www.youtube.com/watch?v=J-bVzUahNIg

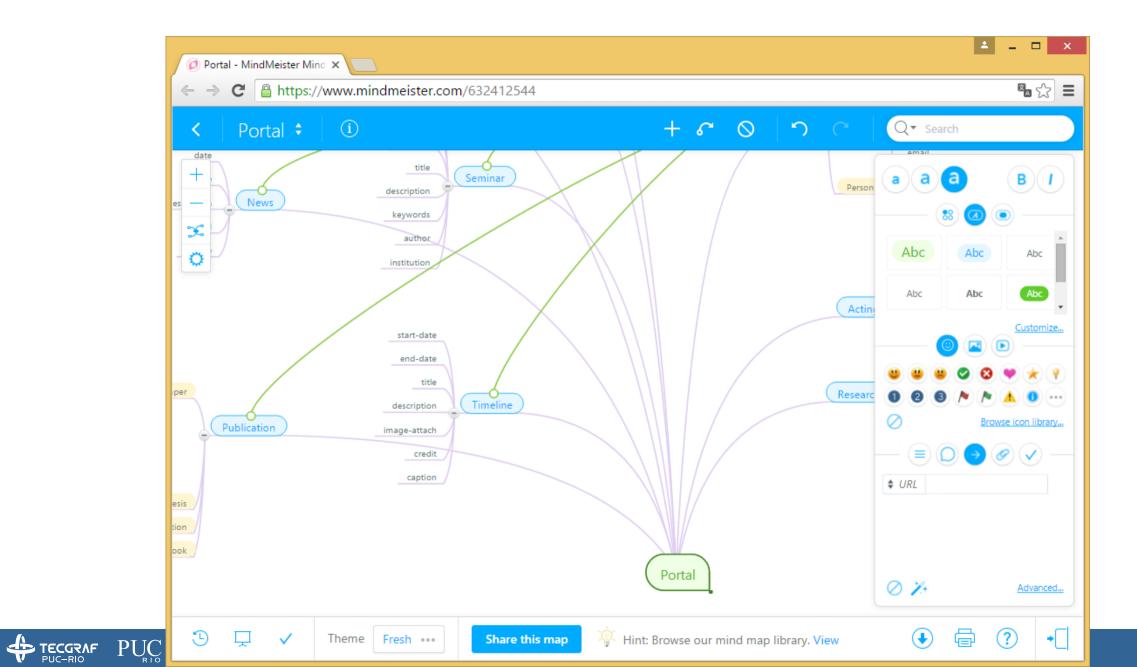

## **Mindmeister**

• A mind map is a diagram used to visually organize information.

## **Digital Mockups/ Wireframes**
